01 ABOUT US

INTRODUCTION

Introducing **CryptoniaX**, where a collection of charismatic Apes represents a club of crypto enthusiasts. As an owner of these unique NFTs, you gain access to an exclusive community that offers rewards, incentives, and a platform to connect with like-minded individuals in the world of cryptocurrencies.

Join CryptoniaX and embark on an exciting journey where holding an Ape NFT becomes a source of pride and opens doors to exciting opportunities in the crypto space.

BACKGROUND

CryptoniaX is an innovative project that combines the world of non-fungible tokens **(NFTs) and cryptocurrency rewards**. Represented by a collection of unique and charismatic Apes, CryptoniaX has created a vibrant club for crypto enthusiasts to come together, connect, and earn rewards.

At the heart of **CryptoniaX are the Apes**, each of which is a distinct NFT with its own unique traits, attributes, and visual characteristics. These Apes serve as the key to access the exclusive club and participate in the rewards program. As an owner of a CryptoniaX Ape NFT, you become a member of this thriving community.

One of the most exciting aspects of CryptoniaX is the rewards system it offers to its Ape holders. As a member of the club, you are eligible to receive various incentives and benefits. These rewards can come in the form of cryptocurrencies, exclusive airdrops, access to limited-edition **NFT drops, and even participation in exclusive events and experiences.**

The rewards program is designed to incentivize participation, engagement, and loyalty within the **CryptoniaX community**. By holding and actively participating in the club, members have the opportunity to be part of a **dynamic ecosystem** that supports and encourages crypto enthusiasts.

02 OUR MISSION

OUR MISSION

At CryptoniaX, **our mission** is to build an inclusive community that embraces the potential of cryptocurrencies and NFTs. We provide a platform for crypto enthusiasts to connect, learn, and **grow together, fostering engagement** and collaboration.

We believe in rewarding our members for their loyalty and participation. Through cryptocurrency rewards, **exclusive airdrops, limited-edition NFT drops**, and access to exclusive events, we incentivize active engagement, creating a sense of belonging within our community.

CRYPTONIA X

ROLLING OUT THE PROJECT IN STAGES

CryptoniaX is thrilled to announce the staged rollout of our groundbreaking project. The **first stage** involves a whitelist registration for collectors to acquire exclusive NFTs at a lower price. In the **second stage**, we focus on community engagement and expansion through social media platforms and events. The **third stage** introduces limited-edition drops of exclusive NFTs created in collaboration with renowned artists. In the **fourth stage**, we explore expansion to other blockchains through partnerships, ensuring inclusivity within the CryptoniaX ecosystem.

Join us on this exciting journey as we unlock new opportunities in the world of Ape-themed NFTs.

03 HOW TO BUY?

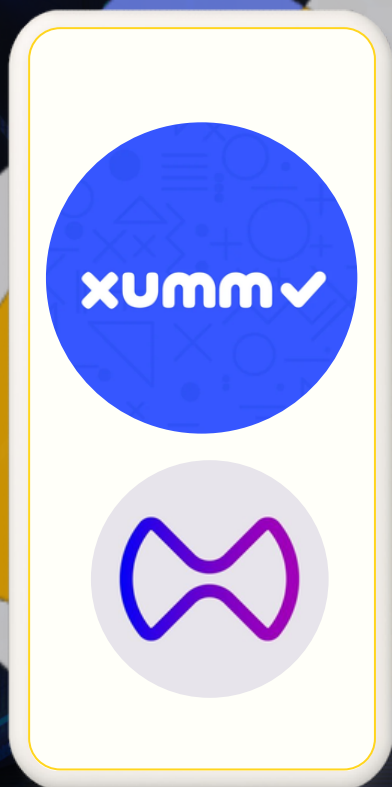

HOW TO BUY CryptoniaX?

YOU NEED THE XUMM WALLET!

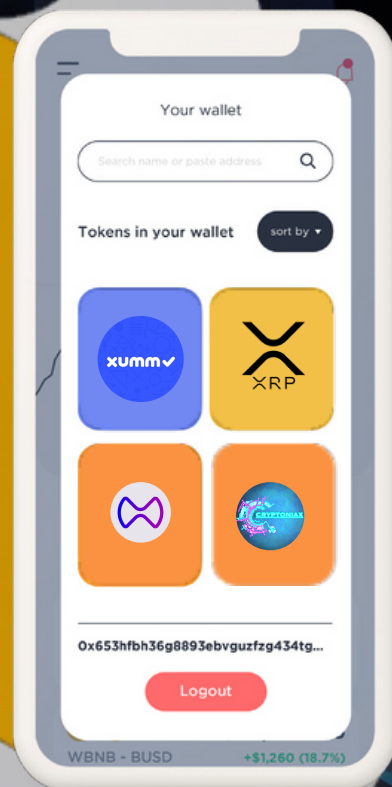

YOU CAN MINT THEM ON ONXRP.COM

MARKETPLACE

STEPS TO FOLLOW!

- CREATE AN XUMM WALLET**
Create an Xumm Wallet using either a desktop computer or an iOS/Android mobile device.
- SEND XRP TO YOUR WALLET**
Transfer XRP to your XUMM from exchanges like Bittrue, Uphold, Crypto.com, etc.
- CONNECT YOUR WALLET TO ONXRP**
Connect your wallet to ONXRP.COM by clicking 'Connect wallet' and selecting XUMM.
- Buy your Nfts now!**
You can start swapping as soon as you have XRP available.

04 A DEEP DIVE INTO NFTS

A deep dive!

NFTS BACKGROUND

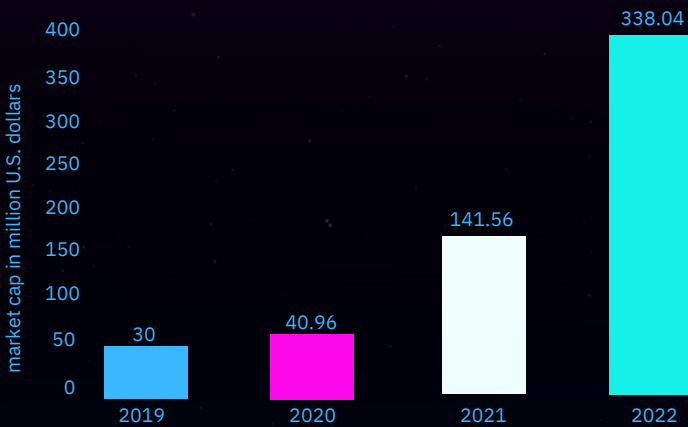

NFTs were born with Crypto Kitties in 2018 and went mainstream in 2021. It is certainly not news that people are crazy in love with nfts, but such an obsession with digital kittens may still be surprising to some. Since then, NFTs have seen explosive growth with evolving technology and have been earning a passionate user- base.

2021 was the breakthrough - NFT transactions tripled, reaching more than \$338.04 million. Today's entertainment, game, art, and gaming industries are buzzing about NFTs. This includes musicians earning millions of dollars through releasing their own NFTs, professional athletes launching their own NFT companies, and gaming clubs looking for opportunities to mint their own NFT tokens.

The market cap of NFT shows a fast-moving development, growing nearly ten-fold between 2018 and 2021.

NFTs have rapidly gained popularity among gamers, artists, celebrities, and influencers as a way to digitize their brands or IP rights. Any fan, no matter if they admire a music band, a football team, or Harry Potter books, loves to collect merch and memorabilia, and won't miss the chance to get to a Meet & Greet, a concert, or a match (as soon as the pandemic is over).

Thus, it's only natural that dedicated fans and collectors are so into NFTs. The new way of collection and fan experience.

NFT market cap from 2019-2022

Source: Statista 2022

In 2018, the NFT industry market cap was measured at just over \$30 million. In 2019, the crypto winter hit the market and was notably a down year for the blockchain industry. However, the NFT market cap rose by 33%, weighing in at \$40 million.

In 2020, the market cap continued on its path of growth. At the end of the year, it was at roughly \$141.56 million.

A deep dive!

NFT OVERVIEW

What are NFTs

NFTs ("non-fungible tokens") are one-of-a-kind tokens that signify a specific good or asset, such as digital trading cards. They can be sold on NFT marketplaces, minted, auctioned, or used as assets in play-to-earn games that are yet to be released.

Their main properties are:

Unique:

Non-fungible tokens contain within their code information that describes the properties of each token that make them different from others. A piece of digital collectible might have coded information about individual pixels, while tokenized game assets might contain ownership, size, and feature details.

Traceable:

Each NFT has a record of transactions on-chain, from when it was created, including every time it changed hands. This means each token can be verifiably authentic and not a counterfeit – obviously a very important thing for owners and prospective buyers.

Rare:

For non-fungible tokens to be attractive for buyers, they should be provably scarce. This will ensure that assets remain desirable in the long run and that supply does not outstrip demand.

Indivisible:

NFTs mostly cannot be transacted as some fractions from the whole. Just like how one cannot purchase half of a game match ticket or trading card, non-fungible tokens cannot be split into smaller denominations.

Programmability:

Like all traditional digital assets and tokens built on smart contract blockchains, NFTs are fully programmable.

A deep dive!

TYPES OF NFTS

Because almost everything may be categorized as an NFT, the definition of an NFT is still a bit fuzzy. Here are a few of the most common and useful NFTs on the market.

1. A piece of art

Art is the most often used kind of NFT. NFTs were designed to allow artists to sell their best work online as if it were a physical thing. Many of the most expensive NFTs are now considered works of art. According to Luno, the most valued NFT ever sold is **"EVERYDAY'S: THE FIRST 5000 DAYS" FIRST 5000 DAYS** by renowned artist Beeple. At the auction, this work of art garnered a staggering \$69 million. Billionaires' financial accounts are being shattered by other incredibly expensive NFTs. This is also true in the case of video art. Millions of dollars have been paid out for short films and even animated GIFs. **"Crossroad,"** a 10-second looping film portraying a naked Donald Trump laying on the ground, sold for \$6.6 million. Beeple was also in charge of this one.

2. Music

On the NFT scale, music is likewise quite high. Music has been a fungible product for decades, created and delivered on vinyl, cassettes, CDs, and the internet. On the other side, musicians and DJs have just begun selling their work as NFTs, generating millions of dollars in a couple of hours. Musicians typically only keep a tiny fraction of the money earned by their work due to streaming platforms and record label cuts. NFTs allow musicians to keep nearly all of their profits, which is why so many are gravitating to this choice.

3. Video game-related items

Another frontier in the NFT sector is video gaming. NFTs aren't often utilized to sell entire games. Instead, in-game items such as skins, characters, and other items will be sold. **DLC** assets are presently available in millions of copies, while NFT items will be one-of-a-kind and exclusive to a single buyer. On the NFT market, developers may sell normal DLC as well as a limited edition version.

4. Trading cards and collectibles

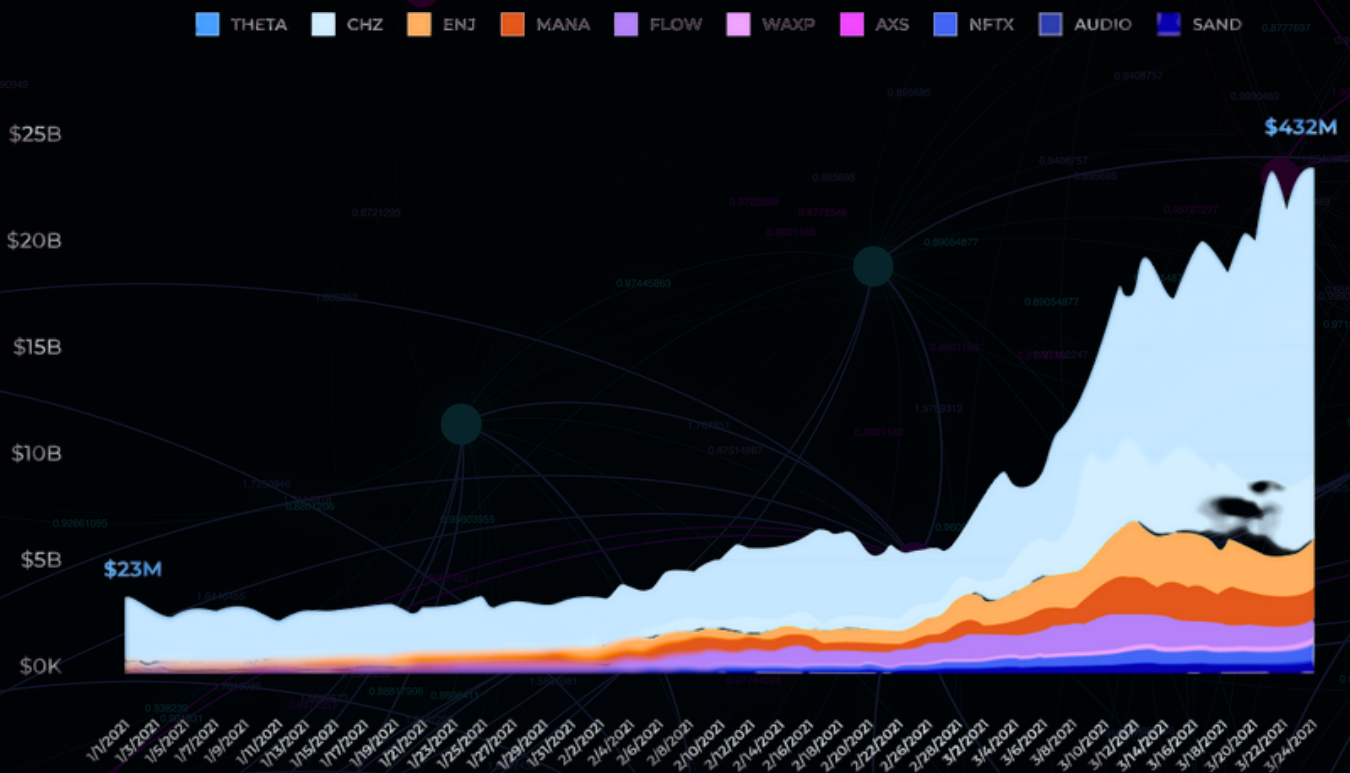

Digital trading cards are comparable to NFTs. Limited edition baseball cards have been known to sell for hundreds of dollars, and the NFT market is no exception. People may buy, sell, and trade virtual duplicates of trading cards on the market, and they can keep them just like the real thing. Some of them sell for over a million dollars, and they look just like the real thing. Businesses may sell a range of collectibles, not just trading cards, on the NFT market. Anything that may be classified as collectible can be sold.

5. Major Sports Events

NFTs provide something that has no physical counterpart: unforgettable sporting memories. These are brief videos of historic sporting events, such as game-changing slam dunks or game-changing touchdowns. These movies can be as brief as ten seconds long, yet they have fetched up to \$200,000.

WHY ARE NFTS TRENDING NOW?

The crypto boom has left a trace on everything connected to the blockchain. The latter is a viable solution to traditional banking, finance, and a solid alternative to old-school technological approaches. Thus, there is much optimism about blockchain development services in the coming years, with **NFT included**.

Statistical data proves the ever-increasing interest in, and capitalization of, the NFT market.

Thus, the future of NFTs seems promising, with increasing investor attention and broadening the scope of offers in the NFT market. The key favorable factors for the NFT market development include:

- **The hype around blockchain, cryptocurrency, and digital assets**
- **Simplicity and user-friendliness of creating, buying, and selling NFTs**
- **People’s readiness to invest in digital artwork and unique artifacts**

As you can see, the demand for NFTs is real. It’s enough to recollect the \$100,000 price for Cryptokitties or a Crossroads sale for \$6.6 million, let alone the sensational Everyday deal for \$69 million. Beeple, a famous digital artist, has already sold NFTs for a cumulative value exceeding \$100 million, while Crypto Punks’ collectibles reach \$1 million in price each.

05 CURRENT CHALLENGES!

Current Challenges

NFTs are not self explanatory

DEX (Decentralized Exchanges) and DEFI (Decentralized Finance) protocols can be confusing for first-time users for some reasons:

- A digital wallet is required, which unfortunately for most is the easy part.
- The NFT industry then needs to be connected to numerous websites and the right chain. If this is not actioned with caution, loss of funds could be the result.
- User experience (UX) is often regarded as poor, with tokens often not showing automatically.
- Most tokens need to be added manually by entering the token address, which can be difficult for those who lack technical knowledge.
- Most wallets do not show the liquidity pools and farms users have entered, making it unclear how those assets perform.

All of the above leads to the requirement of multiple third-party tools and platforms, making the space a difficult beast to tame.

NFT Values

1- Limited

The shortage of NFTs adds to their appeal. NFT developers may build an unlimited number of non-fungible tokens, and they often modify the tokens to keep interest up.

2- Indivisible

The majority of NFTs are indestructible into smaller units. You will not be able to purchase a digital item until you pay the full fee.

3- Unique

NFT is completely safe and accurate because it has a robust information tab. This feature makes the NFT more unique and potent.

06

**THE CRYPTONIA X
NFTS MARKETPLACE**

THE CRYPTONIA X MARKETPLACE

CryptoniaX is proud to present our state-of-the-art NFT marketplace, a platform that will revolutionize the way collectors and creators engage with digital assets. Our marketplace will **provide a dynamic and secure environment** where users can buy, sell, and discover unique NFTs, expanding the possibilities within the crypto space.

- **Gratitude for Support:** We are humbled by the overwhelming support we have received from the community since our launch. It has been heartening to see so many people share our passion for NFTs and the potential they hold. We want to express our sincere appreciation for the support and encouragement we have received.
- **Our Journey Together:** We are excited to be embarking on this journey with the community. We believe that together we can create a future where NFTs are not just a niche concept but an integrated part of everyday life. We are committed to working closely with the community to achieve this vision, and we welcome your feedback and suggestions.

- **Empowering Creators:** Entrepreneurs, and Collectors At **CryptoniaX** Marketplace, we believe that NFTs have the potential to revolutionize the creative industry. We are committed to empowering creators and entrepreneurs by providing them with the tools they need to unlock the full potential of NFTs.

- Our platform will provide a global audience for artists to showcase their unique creations while also giving buyers and collectors the chance to own and enjoy one-of-a-kind digital assets.

- **Accessibility for All:** We understand that the world of blockchain and cryptocurrency can be intimidating for some, and we are committed to making NFTs accessible to all. Our platform is designed to be user-friendly, regardless of your level of technical expertise. We are also working on initiatives to make NFTs more affordable and accessible to people from all walks of life.

HOLD TO EARN!

HOLD TO EARN!

Hold CryptoniaX NFTs for Airdrop Rewards

Welcome to **CryptoniaX**, utilizing a revolutionary platform named **XRPL** where **holding our NFTs grants you exclusive rewards through regular airdrops**. Without the need for staking, your journey to earning starts effortlessly by owning **CryptoniaX NFTs** in your wallet.

Get ready to explore how you can maximize your earnings and dive headfirst into the immersive and rewarding world of CryptoniaX.

I.

The Value of CryptoniaX NFTs

CryptoniaX NFTs hold immense value as digital masterpieces. Each NFT is a unique and indivisible digital asset, showcasing remarkable artwork or virtual items. By simply holding these coveted NFTs, you not only become a proud owner but also gain access to a variety of exclusive rewards and benefits.

II.

Gateway to Continuous Earnings

Experience the innovative airdrop rewards system that sets CryptoniaX apart. Instead of complicated staking mechanisms, CryptoniaX distributes rewards through airdrops. Regularly, tokens, bonuses, or other exciting perks are airdropped directly into your wallet, offering a delightful surprise and a tangible way to increase your earnings.

III.

Strategies for Success

To make the most of your CryptoniaX journey, diversify your NFT collection strategically. Holding a diverse range of CryptoniaX NFTs amplifies your chances of receiving valuable airdrop rewards. Engaging with the vibrant CryptoniaX community, participating in events, and exploring potential partnerships further enhance your exposure to exclusive rewards, unlocking even greater earnings potential.

08 TRANSFORMATION

CRPTONIAX ECOSYSTEM

HOW OUR ECOSYSTEM IS TRANSFORMING THE NFTS?

Our ecosystem is transforming NFTs by empowering artists, ensuring authenticity, enhancing transparency, expanding applications, fostering collaboration, and simplifying user experience. We provide a seamless platform for artists to create and showcase their NFTs, leveraging blockchain technology for authenticity and transparent transactions. We explore diverse NFT applications across industries, foster collaboration within our community, and offer intuitive interfaces for easy participation. Through these transformative efforts, our ecosystem is shaping the future of NFTs.

09 TOKENOMICS

Tokenomics

Total supply 100.000 CRTX

Hold the **Key to NFTs Prestige: CryptoniaX**
Unites Ownership and Rewards

10 ROADMAP

ROADMAP

Phase 1

- Development of the CryptoniaX NFT project ✓
- Launch of Twitter and Discord ✓
- Launch of website ✓

Phase 2

- Mint and launch NFT Collection on ONXRP.COM
- Begin development of the comic book
- Launch of the comic book

Phase 3

- Launch of CryptoniaX token
- Pre-Sale WL members
- Public Sale
- Work on building an NFT Market Place

Phase 4

- Expand to other Blockchains
- Community giveaways/airdrops
- Unleash the true utility. (for example the royalty payouts of the NFTs)
